

# *CAMS Annual Users' Conference, June 11, 2002*

## *Attendee's Evaluation*

---

### *What part of the Conference was most beneficial to you?*

<i>Key</i>	<i>Comments</i>
1	Overall info & bureau updates: also timelines
2	Break out sessions
4	Bureau presentation
5	CAMS user's documentation
6	User documentation web site History of CAMS Presentation from the various bureau implementation
7	Implementation status
8	Mr. Bair's summary of the history of CAMS and the CAMS user documentation breakout session.
9	seeing people we work with
10	The history of CAMS & the audit reports since Census needs to start monitoring activities, I expect the audit reports will be very useful in monitoring our activity.
11	I found the history to be helpful
12	The general premise of gathering all CAMS users in one place was great - definitely helps to hear cross-bureau perspectives on similar implementation activities/experiences.
13	The breakout sessions were most beneficial
15	Background and history of CAMS
16	History / various bureau presentations
17	Participation of DoC CFO
18	Management (Otto Wolfe) insite and direction
19	The open/general session. Learning what other Agencies have done with CAMS and Implementation Plans. CAMS history was very interesting & future plans were also interesting and helpful/informative.
20	Finding out how the other bureaus in Commerce did to implement CAMS and what problems to look for.
21	CAMS history delivered by Bob Bair (very well done) Seeing Otto Wolf participate Hearing implementation managers status
23	Demos
24	Government-wide initiative presentation of the SGL, presenter's comment that budget staff & accounting staff need to talk to each other.
25	The A/R module session

---

## *What part of the Conference was most beneficial to you?*

<i>Key</i>	<i>Comments</i>
27	Year-end close session
31	Breakout sessions
32	All - Data Warehouse
33	Hearing a frank discussion of the 20 year time line Hearing other bureaus implementation stories (2nd half of morning)
35	Information regarding the future of CAMS - and the Hyperion information.
39	To hear other bureaus opinions of CAMS and the upcoming changes/updates for CAMS
40	Breakout session on Data Warehouse
42	Overview
43	CAMS history, today and future Bureau presentations Breakout sessions
44	The overview of CAMS
45	Recognition of bureau staff
48	Session II
49	The morning session. It was interesting to find out where each bureau stood in reference to the CAMS systems: how each agency went about rolling it out.
51	History, background
52	CAMS deployment history & lessons learned from bureaus who already implemented CAMS
53	Background/future of CAMS, I have never used CAMS and some of the information in the breakout sessions was "over my head"
54	Bureau presentation & history of CAMS
56	Information provided in breakout more intensive than provided ny NOAA budget. The speakers were knowledgeable knowing NOAA will use lessons learned would be really good.
57	Bureau presentations
58	The speakers from each Bureau that discussed their experiences with the CAMS implementation
60	Opportunity for networking
61	Continue to include the history and plans for those of us who are relatively new to Commerce
63	The breakOut sessions
64	Imp mgmr's sessions Otto, Jim Taylor, Bob Bair
65	External speaker experience

---

## *What part of the Conference was most beneficial to you?*

<i>Key</i>	<i>Comments</i>
67	Breakout session
68	Breakout sessions
70	This was billed as a "users" conference. Only the CFO presentation and the breakout sessions addressed the impact on the users. The morning presentation missed the target "user" audience. Focus on users.
71	1) Conference name is misleading because of the word "users." Very, very few CAMS users were here, but CAMS workers are. 2) Agenda: Peoples titles need to be included: who are these speakers? 3)Let us meet our counterparts at other agencies. 4) Conference allowed many of us to interact with fellows Census CAMS employees whom we rarely see at work 5) Breakout session need more than a title from which we decide what one to attend. Include a paragraph with the title.
72	Reports from each Bureau & sample screens
73	To hear comments of other Bureaus already using CAMS
74	Overview / History
76	The breakout sessions
80	Discussion of Summary Level Transfer
81	CAMS Deployment history Overview of CAMS projects
82	Automated Standards Application for Payments (ASAP) Interface and Accounts Receivable Module are the most beneficial to me. My job guarantees results from them.
83	Breakout sessions
84	-Bureaus sharing the CAMS implementation experiences. -Budget & future of CAMS -Breakout sessions - overview of CAMS modules
85	Bureau persentation - lessons learned (as an implementer) as and end user I would not have been as interested in the sessions before the breakouts.
86	To know the history, current status and future of CAMS.
87	Goals and Future
