

CAMS User's Conference - June 11, 2002

**Recognition of EDA's End-Users**

The following individuals worked endless hours in setting up and implementing CAMS for EDA. The original implementation conversion based on converting our entire legacy system was unsuccessful. Converting the unobligated balances had to be completed and implemented in a six week period which included entering and reconciling all data for Fiscal Year 2000. With the help of the CSC, the project was completed and implemented in time to close and process FY 2000 Treasury reports. The dedication and commitment of these employees made the conversion possible. We would like to take this opportunity to recognize the following end users for EDA's CAMS implementation.

1. Bryan Fong
2. Richard Martin
3. Althea Thompson
4. Ghee Tara
